Profile

Computer Science graduate actively seeking a challenging role where I'm driven to contribute to innovative companies at the forefront of technological advancement with a solid foundation in technical skills gained through my academic journey.

Education

Mangalore Institute of Technology and Engineering   Dec 2021 – May 2024
BE in Computer Science and Engineering, CGPA: 7.01

Skills

Programming Languages: Golang, Java, Python, JavaScript, SQL
Technologies: React.js, Node.js, RESTful APIs, Spring Boot
Databases: MySQL, MongoDB
Cloud: AWS, Azure, GCP
Version Control: Git, GitHub

Experience

Java Full-stack Development Intern | KodNest

- Built and refined full-stack web applications with Java, Spring Boot, and React, emphasizing seamless RESTful API integration and efficient data management.
- Enhanced DSA skills, achieving a consistent 50% improvement in algorithm efficiency during coding challenges, directly influencing application performance metrics.

Salesforce Developer Virtual Intern   View Certificate

- Engineered custom Salesforce applications, automating business processes and reducing manual processing time by 30%.
- Collaborated with cross-functional teams to deliver solutions that boosted system efficiency by 25% and elevated user satisfaction by 20%.

Projects

Automotive Service Management System   GitHub Link
Tech Stack: Java, Spring Boot, MongoDB, MySQL, AWS

- Built a microservices-based system using Java and Spring Boot, optimizing real-time updates and service request management with AWS and ELK Stack.
- Achieved 30% better efficiency and scaled to handle 1M+ monthly requests with minimal downtime.

Student Information Hub   GitHub Link
Tech Stack: Java, JavaFX, MySQL, JDBC

- Implemented a JavaFX-based desktop application with CRUD operations and report generation, integrating MySQL via JDBC for seamless data handling.
- Enhanced data management efficiency by 40%, streamlining student record management.

Certifications

- Problem Solver Certificate BY HackerRank
- Full-stack Development by Meta on Coursera
- Web Development Using AIML - Kakunje Software Pvt Ltd

Honors & Awards

- CodeChef: Navigated complex problems, gaining mastery over algorithms.
- HackerRank: Solved diverse problems with versatility.
